Live like an A-lister with these glamorous closet solutions. They're fully functional and dripping with style.

BY NINA PATEL

Kathy Jenkins, professional organizer, knows all too well what happens in a house with the explosion of equipment, clothes, shoes, bags, etc.: Total chaos! But on her website, www.cometoorderva.com, the Richmond, Va.-based professional organizer offers solutions and a technique to lead homeowners through the de-cluttering process. The SIMPLE method stands for "sort, identify, make a home for

it, put it in containers, label, and establish a system."

But before tackling these steps, homeowners and consumers need to think about their budget and aesthetics, Jenkins says. The answers will dictate the project.

A good way to tackle storage issues is with cool options, and we found some for you. They're full of creativity, but they're also dripping with style.
